

# PHANTOM'S RETRACTABLE SCREENS FOR ALL DOOR TYPES

Introducing  
**latch stop.**  
A lock for the  
latching handle.

## YOUR DOOR SCREEN'S NEW BEST FRIEND!

Though it may be *just a screen door*, the ability to lock the retractable screen provides greater peace of mind. This new locking feature helps deliver an elegant solution for those who want a sense of security that the latching handle alone doesn't provide.

## Introducing latch stop – your door screen’s new best friend!

Phantom retractable door screens – now with the ability to lock!

Our retractable screen doors are there when you need them, keeping those bugs out, and vanish totally out of sight when you don’t. Imagine that NOW with the ability to lock the screen door, too! With the latch stop feature, you can. Whether you want to upgrade your existing Phantom door screen with the latching handle, or you’re a first-time Phantom door screen buyer, this is for you!

### Retractable door screen — FEATURES & BENEFITS

- Retracts completely out of sight to restore fully open views
- Installed on your home by trained professionals
- Maintains the aesthetics of your door
- Fits all door types including in-swing, out-swing, double-French and sliding patio doors
- Works with both in-jamb & surface mount applications
- Fits all door threshold types with a variety of sill adaptors
- Comes with a wide range of mesh options for insect and UV protection
- Backed by industry-leading warranty\*

### Latch stop option — FEATURES & BENEFITS

- Knowing someone unwanted can’t simply walk in
- Being aware of any surprise drop-ins or people entering (even if they’re invited!)
- Limiting small children’s ability to open the screen
- Adding one more barrier to accidental openings of the door screen

ADDED SECURITY

BUG PROTECTION

AIR FLOW

HASSLE-FREE INSTALLATION INCLUDED

Pull the screen door across so it’s in use. Press down on the slider so that the top of the slider is flush with the top of the handle. This will activate the latch lock by preventing the lever from being operated. **IT’S LOCKED!**

Press upwards on the slider to disengage the latch stop. The slider should protrude above the top of the handle. The screen can now be operated. **IT’S UNLOCKED!**

### DOOR SCREEN COLOR OPTIONS

Phantom’s door screens are available in one of our ten ready-to-order standard colors. Decorative wood grain finishes and custom color options are also available.

Please note that the appearance of the colors illustrated will differ from the actual coated samples or finished articles.
